

Hands-on Lab : Getting Started with PowerPoint for the Web

Estimated time needed: 20 minutes

Microsoft PowerPoint is the most widely used presentation software even three decades after its initial release. For all these years it has been available as a standard application that needed to be installed on your desktop; but it is not just a desktop app anymore. Now, you can even use PowerPoint when you are online by using 'PowerPoint for the web' - and run it right in your web browser without installing anything on your desktop!

'PowerPoint for the Web' (sometimes referred to as PowerPoint Online) can be used at no charge as part of a free Microsoft account. Although it does not have all of the capabilities of the desktop and paid online versions, the free web version provides many of the key features.

Software Used in this Lab

For the story telling/project report of this module, you will be using the free 'PowerPoint for the web' version as this is available to everyone.

Although you can use the PowerPoint Desktop software if you have access to this version, it is recommended that you use PowerPoint for the web for your project report as it is available for free, and there are some small differences in the interface and available features.

Objectives

After completing this lab, you will be able to:

- Sign up for a Microsoft Account to use PowerPoint for the web
- Sign in and open a new blank presentation in PowerPoint for the web

Exercise 1: Sign-up for a Microsoft Account to use PowerPoint for the Web

In this exercise, you will sign up for a Microsoft Account to use PowerPoint for the web.

If you already have a Microsoft account, you can skip Exercise 1 and proceed to Exercise 2 directly.

1. Go to www.office.com. Click **Sign in**

Sign in to use your favorite productivity apps from any device

2. Click **Create one!**

Microsoft

Sign in

Email, phone, or app

No account? **Create one!**

3. Enter your existing email id with which you want to create a Microsoft account. Click **Next**.

Microsoft

Create account

Enter your email

someone@example.com

Use a phone number instead

Get a new email address

Next

4. Enter your password and click **Next**.

The image shows a Microsoft account creation interface. At the top left is the Microsoft logo. Below it is a back arrow and a partially obscured email address ending in @gmail.com. The main heading is "Create a password". Below this is a prompt: "Enter the password you would like to use with your account." There is a text input field containing the placeholder text "Create password". To the right of the input field is the label "Enter your password". Below the input field is a checkbox labeled "Show password". At the bottom right is a large, dark, circular button with the word "Next" in white text.

6. Enter your phone number and click **Send Code**.

The screenshot shows the Microsoft account security setup interface. At the top is the Microsoft logo. Below it is a back arrow and a partially redacted email address ending in @gmail.com. The main heading is "Add security info". Below this, there is explanatory text: "When you need to prove you're you or a change is made to your account, we'll use your security info to contact you." and "We'll text you the code you'll use to verify your phone number." The "Country code" section shows a dropdown menu with "Canada (+1)" selected. The "Phone number" section has a text input field and a "Send" button. A red circle highlights the "Send" button. At the bottom right is a "Next" button.

7. Enter the access code you received as a text on your phone, then click **Next**.

The image shows a Microsoft account security setup screen. At the top is the Microsoft logo. Below it is a back arrow and a redacted email address followed by '@gmail.com'. The main heading is 'Add security info'. Below this is a paragraph explaining that security info is used to verify the user's identity. Another paragraph states that a text message with a verification code will be sent to the user's phone number. There is a dropdown menu for 'Country code' with 'Canada (+1)' selected. Below that is a 'Phone number' field with a redacted number. A button labeled 'I didn't get a code' is positioned below the phone number field. To the left of the next section is the label 'Enter the access code' above a text input field. To the right of the input field is the instruction 'Enter the code you received on your phone as text'. At the bottom right is a large circular button with the word 'Next'.

8. You are now done with the sign up procedure. Now since you are signed in after sign up at this stage, you can proceed directly to **Task B** of **Exercise 2**.

Exercise 2: Sign-in, Upload and Open presentation in PowerPoint for the Web

In this exercise, you will sign in to PowerPoint for the web. Then open a new blank presentation. Lastly upload, open and edit a presentation.

Task A: Sign in to PowerPoint for the Web

1. Go to www.office.com. Click **Sign in**.

Sign in to use your favorite productivity apps from any device

2. Enter your sign in email.

 Microsoft

Sign in

Enter the email ID
you used to sign-up

@gmail.com

No account? Create one!

Can't access your account?

Sign-in options

Next

3. Enter your password.

 Microsoft

@gmail.com

Enter password

Password

Enter the password
you created

☐ Keep me signed in

Forgot password?

Sign in

4. You are now signed in.

Task B: Open a new blank presentation in PowerPoint for the Web

1. Click on the **PowerPoint** icon.

2. Click **New blank presentation**.

3. You have successfully opened a new blank presentation in PowerPoint for the web.

Task C: Upload, Open and Edit a Presentation

1. Right click to download the file [capstone-story-template.pptx](#)
2. To upload and open a presentation file in PowerPoint for the web, click the **App Launcher** (cube of dots) in the top left corner. Click **PowerPoint** icon.

Office 365 →

Apps

 OneDrive Word Excel PowerPoint ⋮ OneNote

All apps →

3. Click **Upload and open...** and select the **capstone-story-template.pptx** file.

4. The file will be uploaded to your OneDrive of the Microsoft Account you signed up and used to open PowerPoint for the web.

Uploading to OneDrive

Your file will be opened automatically after upload is complete.

511 KB/511 KB

Tip: You can now drag and drop files to upload them.

Cancel

5. Now edit the presentation with your information required for this module. Your edits are saved automatically.

Congratulations! You have completed this Lab.
